

FREE 90-DAY SUBSCRIPTION TO WEBSITE PROCEDURAL VIDEOS WITH *EQUIPMENT PURCHASE!

**With purchase of Body-Jet water-jet assisted liposuction device*

Eclipse, in association with Practice Profits Media, is now offering patient procedural videos to stimulate patient interest in your additional services.

Effective medical marketing establishes your credibility, strengthens patient loyalty and gives you the competitive advantage. These dynamic media marketing tools can increase your profit margins by educating your current patients as well as making the best impression on prospective patients.

Practice Profits Media offers a library with over 80 different procedures ranging from CO2 Laser Therapy to Liposuction to Chemical Peels. Whatever your practice offers, chances are there is a video available on that topic. Please visit www.practiceprofitsmedia.com to view the procedure library.

Getting started is easy. After purchasing your new equipment, you will be contacted to set up your 90-day trial web films. At the completion of your trial period, this service will be renewable and upgradeable with additional services and pricing shown below. There is a minimal \$35 set-up fee. Following the 90-day trial, this fee will be refunded if you choose to continue your subscription. Additional services are also available through Practice Profits Media. If you would like to offer these films in your waiting and exam rooms, Practice Profits offers customizable looping DVDs featuring your choice of procedural videos, your practice logo, as well as the option to add your own before-and-after photos. Practice Profits staff will even travel to your office to film interviews with you, your staff and satisfied patients which can then be included in your DVD and added to your practice website.

SUBSCRIPTION OPTIONS

Web-based Video Subscription set-up fee \$35

- Web-based Video Subscription Service \$99/mo AFTER 90 day trial
- Waiting Room DVD \$2,995
- On-Location Video Shoot \$3,500
